Net Profit After Minority Interests	12,382	11,746	5%
Earnings Per Share (basic)	28.8 sen	27.3 sen	5%

**Kuala Lumpur, September 20, 2011:** KESM Industries Berhad (Bursa Securities: KESM), the largest independent burn-in service company in Malaysia, reported revenue for financial year ended 31 July 2011 increased by 10 percent to RM248.1 million from RM226.5 million a year ago. Profit before tax also increased by 17 percent to RM22.7 million from RM19.4 million last year. For the financial year 2011, KESM reported a net profit of RM16.7 million reflecting a 19 percent increase

“Electronic contents for cars are steadily increasing. Lifestyle changes have created demand for more sophisticated features in phones, videos, internet and many other applications in cars which increase the complexity and volumes for semiconductor chips. Demand for cars in China has further driven the market growth last year. Legal initiatives to reduce carbon dioxide emissions and improve fuel consumption in cars further expanded the semiconductor growth. These developments have largely contributed to our expansion in burn-in and test services,” commented Mr. Lim.

The semiconductor industry is expected to reduce by 0.1 percent with revenues reaching US\$299 billion in 2011.

**About KESM Industries Berhad**

KESM Industries Berhad is the largest independent burn-in service company in Malaysia, specializing in “burn-in” and “test” of integrated circuits. KESM, the first burn-in “service company” to be accredited with ISO 9002 and QS 9000, is fully committed to promoting the highest quality of services to the electronics and semiconductor industries.
